The figure is a map of a road section (DN2) from km 292+350 to 311+660. The map shows a green shaded area representing the sound level difference (Ln) at night, ranging from -2 to 10 dB(A) according to the color scale. The map includes contour lines, roads, and various geographical features. A legend provides symbols for roads, buildings, and other features. A box labeled 'EU buildings (Appendix VI)' contains information about building footprints and noise reduction distances.

**Simboluri**

- Ax drum
- Linie de emisie
- Suprafață drum
- Banda centrală
- Pođ
- Zid protecție zgomot
- Cladire principală
- Cladire auxiliara
- Padure
- Zona absorbție zgomot
- Curba de nivel
- Zona de calcul

**EU buildings (Appendix VI)**
